**ecospecifier's role is:**

- ❖ to provide a third party, independent and unbiased assessment of information provided by manufacturers and other sources;
- ❖ To assess products using known Australian and International Standards, independent test data, third party research and expert opinion;
- ❖ To determine if products are eco and health preferable based on the premise that:
  - they need to exhibit one or more eco or health preferable characteristic compared to other products in their category; or
  - be a member of a product category that is in itself an eco or health preferred category; and
  - should not contain 'significant' ecological or health damaging content.
